

The Daily Courant.

Friday, August 27. 1708.

From the Paris Gazette, dated Aug. 25.

Rome, July 28.

THE 22d of this Month, the Cardinals, to the Number of 34, assembled in the Palace of Cardinal Carpegna, the eldest Cardinal re-siding in this City, and held a Congregation of State to deliberate on the present Conjunction of Affairs, and on the Means for securing the Ecclesiastical Territories. They deliberated likewise what was proper to be done in the Name of the Pope and of the holy See, with regard to the circular Letters and Manifestoes of the Emperour, which the Count de Cauniz Auditor of the Rota sent to all the Cardinals, who without opening them sent them to his Holyness. Tho' the Resolutions taken in this Congregation are kept very secret, we are assur'd the greatest Part of the Cardinals represented, that since the Imperialists after so many Disorders which they have committed in Italy, to the Ruine of the Subjects of the Ecclesiastical State, had trespass'd on the Patience of the Pope to such a Degree as to pretend to dispute his Sovereignty, 'twas necessary to find out Means for opposing so many Violences. Accordingly the new Levies are continued with all possible Diligence.

Geno, Aug. 4. We had Advice, that the Detachment of the Imperial Regiments of Roccavione and Hautois which were in the Ferrareze, had Order to march to Piemont: But they halted at Bondeno where the Panaro falls into the Po. 'Tis believ'd they were order'd to stop there, in order to their entring with other Troops into the Parmesan, to compel the Duke of Parma to do Homage to the Emperour, who has declar'd his Territories to be Fees of the Empire, as well as all the rest of Italy without Exception. These new Pretensions oblige all the Princes and States of Italy to arm for the Defence of their Liberty, the rather because they are perswaded that the German Troops which are now acting in Conjunction with the Duke of Savoy, will return into Italy to execute the Emperour's Orders. The Advices from Naples, are, that the great Scarcity of Corn there continues, that the Neapolitans are extremely dissatisfied with Cardinal Grimani their new Viceroy, who has caus'd the People to be disarm'd; and that there are in that Kingdom but 5000 Germans Effective Men.

From the Amsterdam Gazette, dated Aug. 31.

Naples, Aug. 7. Couriers are frequently receiv'd and dispatch'd about the present State of Affairs, which occasions the holding of many Councils. A new Edict has been publish'd, forbidding on Pain of Death the sending any Money out of the Kingdom, by Land or Sea, without the Permission of the Viceroy. General Caraffa is expected here with the Cavalry from Calabria, in order to march with other Troops and a Train of Artillery to the Abruzzo, there to act according to the Orders that shall come from Spain or the Emperour. German Troops continue to be transported over the Adriatic from Segna, Fiume, and other Ports belonging to the House of Austria; and they are landed in the Abruzzo and in Apulia, that they may have no Occasion to pass over any Part of the Territories of the Church. By Order of the Viceroy Cannon are sent to Posillipo, Nisita, and Procida, and arm'd Barks are sent to cruise on the Coasts of the Kingdom. Some Prisoners are expected here, who are accus'd of a Design to deliver up the Fortres of Pescara.

Rome, Aug. 10. The Pope's 4 Galleys are gone from Civita-Vecchia for Marseilles, to convoy from thence the Barks which are to transport hither the Soldiers levied in the District of Avignon. Prince Pio waits at Nettuno for the Galleys of the Duke de Turfis's Squadron, which are to carry him to Sicily, the Forces of which Island he is to command.

in chief. A Company of 100 Grenadiers is form'd here, of Men chosen out of the Levies from divers Parts; and the Country Militia are exercis'd. Some Roman Gentlemen having solicited military Employments, the Pope has answer'd them, that he was resolv'd to make Use of Officers of Experience; but that if to shew their Zeal they would each of them raise a Company at their own Charge, he would give them Commissions; as had been done to the Marquis Ruspoli (who designs to augment his Regiment to 1000 Men,) and also to the Marquises Cavalieri and Buffalo.

Bologna, Aug. 18. An Order is come hither from Rome, not to give Passage any more to Imperial Troops to march to the Kingdom of Naples, or to furnish them with any Subsistence; Upon which a Messenger is dispatch'd to the Court, to reprent the Consequences and Inconveniences which might arise from the Part of the Imperialists, if this Order should immediately be put in Execution. Notwithstanding all the Preparations made on both Sides, 'tis rumour'd an Accommodation is set on Foot by the Interposition of the Elector Palatine and the great Duke of Tuscany.

Venice, Aug. 18. They write from Ferrara, that Orders were come thither from Rome for providing Quarters for Troops intended to be sent thither. The Duke of Modena has view'd certain Posts near the Panaro, accompanied by some Ingeniers; and 'tis conjectur'd he designs to cause some Fortifications to be made there. They beat up at Modena for Voluntiers, and all the Forces of that Dutchy are order'd to be in a Readiness to march by the 27th of this Month: The exporting Horses out of that Dutchy is strictly forbidden.

From the Leiden Gazette, dated Aug. 31.

Paris, Aug. 24. The King has nominated the Marshal de Theise to go in Quality of his Plenipotentiary to the Courts of Rome, Florence, Venice, Genoa, and Paima, to bring to a Conclusion a new League, which is negotiatiing against the Emperour. And 'tis said that the Pope's 4 Galleys are already arriv'd at Marsailles, to carry that Marshal to Civita-Vecchia: But 'tis very much apprehended that the Venetians will not engage in this Alliance, tho' the Marshal has order to assure them, that the King will send to Italy 20000 Foot and 3000 Horse, as soon as the Fleet of the Allies shall leave the Mediterranean to return home; and we reckon, that without the Venetians, the other Princes and States of Italy will not enter into any such League. The Plan of that League is, that the two Crowns shall furnish 23000 Men, the Pope 2000, the Republick of Venice 18000, the great Duke of Tuscany 8000, the Republick of Genoa 12000, and the Duke of Parma 4000. The King has held a great Council, to consider whether to hazard a Battle for the Relief of Lisle: The Persons of whom that Council was compos'd, were much divided in their Sentiments; but the Opinion of the Marshal de Catinat prevail'd, and determin'd his Majesty to attempt the Relief of that Place at any Rate. To this End he has sent Order for the Garrisons of all the Frontier Places of Flanders to reinforce the Army of the Duke of Berwick, and to the Duke of Burgundy to leave a Detachment on the Canal of Ghent and Bruges and joyn the Duke of Berwick; and 'tis said that when those 2 Armies are joyn'd, they will make up 170 Battallions and 240 Squadrons.

From the Paris Letter, dated Aug. 24.

Paris, Aug. 24. The Pope very much approves the Conduct of the Cardinal Legate of Ferrara, to whom the Marquis de Prie, his Imperial Majesty's Plenipotentiary, offer'd a Memorial (in the Conference they had together,) in which he undertook to shew that all the States of Italy were Fees of the Empire: But the Cardinal Legate would neither receive the Memorial, nor hear it read. Letters from Venice advise, that the Marquis de Prie offer'd

to take a second Journey from Milan to Final de Modena; in Order to propose, as one Means of Accommodation, that Comacchio should be put into the Hands of some Prince of Italy, in the Condition it now is, till the Dispute about it be amicably determin'd: But the Court of Rome take this new Offer, to be only to gain Time. Letters from Mar-silles of the 15th of this Month, say the Pope's 4 Galleys are arriv'd there, to Transport to Italy the Officers that have engag'd in his Holiness's Service, and the Soldiers rais'd in the County of Avignon. 'Tis advised from Baden, that the Protestant Swiss-Cantons do all they can, to dissuade the Roman Catholick Cantons from granting the Levy of 6000 Men demand'd of them by the Pope: And that Count Traumansdorff the Emperour's Minister, threatens them with the Refinement of the Imperial Court. The 18th Instant Signor Agostino Cusini, the Nuncio in Ordinary from the Pope, had a private Audience of the King.

From the Amsterdam Courant, dated Aug. 28.

Letters from Genoa of the 12th of August advise, that 40 Officers, either French or of Avignon had pass'd that Way in their Way to Rome, to be employ'd in the Pope's Troops; and that Advices from Rome import, that the Cause of the Condemnation and Execution of the Abbot Rivarola a Genouese, was his having written against the Pope and France in Favour of the Allies, and discovering some Intrigues of the Court of Rome with that of France for placing the pretended Prince of Wales on the Throne of Great Britain.

From the Leiden Gazette, dated Aug. 31.

Letters from Venice of the 17th of August advise, tha the Differences between that Republick and Spain, are accommodated; and that the Prince de St. Buono having resolv'd to make his publick Entry next Shrove-Tuesday, the Republick have determin'd to send an Embassy to King Philip: And that M. de Pompone Ambassador of France, had been often with the Doge and Council, to perswade the Republick to joyn with the Pope against the Emperour, but had receiv'd only general Answers.
